

Dear student,

the U-Multirank project is collecting data for our multi-dimensional global ranking of higher education institutions. One of the major purposes of U-Multirank is to help prospective and mobile students to make an informed choice in selecting their university. In contrast to existing global rankings - that focus mainly on research indicators - U-Multirank has a strong emphasis on the student perspective and hence on teaching and learning. The assessment of their learning experience by current students is an important source of information for prospective and mobile students.

We kindly invite **you to share your views** on your university, your programme and your learning experience! Please give a candid and fair assessment!

Data privacy is guaranteed. We will not ask for your (email) address and your address will not be linked with your answers. In the beginning of the survey, you will be informed about our data security rules. In order to start the questionnaire please click "I agree to the processing of my personal data in accordance with the information provided herein".

The questionnaire is available online in **English, French, German, Greek, Italian, Polish, Portuguese, Russian, Spanish, Turkish and Ukrainian**.

You can access the questionnaire at:

**<https://che-survey.de/uc/umr2022/>**

Your personal password is:

***code***

If you have any questions on the project or the questionnaire (including technical questions), please contact the U-Multirank team ([info@umultirank.org](mailto:info@umultirank.org)).

Many thanks for your support and with kind regards,

Prof. Dr. Frank Ziegele (CHE) and Prof. Dr. Frans van Vught (CHEPS)  
U-Multirank Project leaders
